# Mumbai Enterprise Campus

# Shaping the future, together

## Introducing the Mumbai Enterprise Campus

**Get a world-class degree from one of the UK's top universities  
— without leaving India.**

The University of Bristol is proud to launch its first international campus in Mumbai — a bold step in global partnership and innovation. Set in one of the world's most dynamic and creative cities, the Mumbai Enterprise Campus is designed to be more than a place of learning. It's a collaborative hub where students, researchers, and industry leaders come together to shape a better future for people and planet.

Built on the principles of innovation, inclusion, and connection, the campus reflects Bristol's belief that progress is driven by partnership across disciplines, cultures, and communities. It will offer a range of undergraduate and postgraduate programmes, taught in English and adapted to local context, in fields where Bristol holds global distinction.

This campus will offer undergraduate and postgraduate programmes aligned to Bristol's strengths in data science, artificial intelligence, fintech, immersive arts, economics and related fields. It will be a space where students, researchers and industry leaders come together to explore emerging technologies, challenge assumptions and shape a better future – locally and globally.

This new campus is a shared endeavour between two cities alive with energy, imagination, and ambition. It represents a transformative moment in the University's 150-year history, and a commitment to co-creating new ideas, solutions, and futures — with and for Mumbai.

## Mumbai: A global powerhouse

Developed in partnership with the Indian government, the Mumbai Enterprise Campus will reflect the energy and entrepreneurial spirit that defines the city of Mumbai and the University of Bristol. Located in the heart of a global hub for technology, creativity and culture, it will provide a natural home for programmes in data science, AI, economics, fintech and immersive arts.

Recognised as AI University of the Year in 2024, the University of Bristol will bring unrivalled expertise to a local setting — expanding opportunities and meeting future innovators where they are.

## What to expect

We ensure that our students are provided with an academically rigorous and research-rich education to empower them to reach their potential and make them attractive to employers. We are world leaders in critical global challenge areas like Artificial Intelligence, Climate Change and Population Health and delivering technological innovation at the crossroads of creativity and entrepreneurship.

The University of Bristol, Mumbai Enterprise Campus will provide:

- Undergraduate and postgraduate programmes in high-demand fields
- Taught in person, in English, in Mumbai
- Access to world-class academics, strong industry links, and a global network — helping you launch a career with international impact

**“This is far more than a new location; it's a purposeful extension of our vision to meet our learners and communities where they are, and to do so with respect, integrity, and deep local engagement that sets us apart as a global civic institution.”**

Michele Acuto, Pro Vice-Chancellor  
for Global Engagement

## The University of Bristol

The University of Bristol's roots date back to 1876. Since its formation it has become one of the leading institutions among the UK's Russell Group of universities and operates globally, where it is recognised for its research and academic excellence.

The University has a strong interdisciplinary approach and regularly features among the top-ranking institutions in global league tables.

- 51<sup>st</sup> in the World (QS World University Rankings 2026)
- 8<sup>th</sup> in the UK (QS World University Rankings 2026 UK)
- One of the 5 most targeted by top UK recruiters (High Fliers Research 2024)
- Top 5 UK university for research quality (Times Higher Education REF 2021 quality rankings)
- AI University of the Year (National AI Awards 2024)

The University of Bristol's mission is 'to pursue and share knowledge and understanding, both for their own sake and to help individuals and society fulfil their potential'. This is underpinned by a vision for the University of Bristol as an international powerhouse of learning, discovery and enterprise, whose excellence is acknowledged locally, nationally and globally, and that is:

- Dedicated to academic achievement across a broad range of disciplines, and to continuous innovation and improvement
- Research-intensive, supporting both individual scholarship and interdisciplinary or thematic research of the highest quality
- A centre for intellectually demanding, research-informed education that nurtures independence of mind and helps students achieve their personal goals and serve society's needs, both during and after their time here
- An inclusive and collaborative community of scholarship that attracts and retains people with outstanding talent and potential from all walks of life and all parts of the world
- A stimulating and supportive environment for all students and staff, distinguished by a commitment to high standards, respect for the individual and a strong sense of collegiality
- Committed to operating in a sustainable manner
- Engaged with society's interests, concerns, priorities and aspirations
- Well led and responsibly run, with an emphasis on consultative decision-making and open communication as well as personal responsibility and accountability

## Our mission

- At the University of Bristol, our mission is to make a positive impact locally, nationally, and globally by addressing society's greatest challenges. We do this through distinctive education, innovative research, and a deep commitment to excellence, inclusivity, and partnership.
- Rooted in over a century of civic engagement and academic distinction, we are also committed to acknowledging and addressing the complexities of our past — including legacies of inequality — as we build a more just and inclusive future. Our strategy is shaped by the collective ambition of our students, staff, alumni, and wider community, and it guides our investments, curriculum, and support services to ensure Bristol remains a world-leading institution.

## Our vision

- By 2030, the University of Bristol aims to be firmly established among the world's top 50 research-intensive universities and the top 10 in the UK.
- Our vision is built on expanding high-impact research, attracting and inspiring students from diverse backgrounds, and intensifying our focus on sustainability and climate action.
- We are committed to equipping students with the skills needed to thrive in a rapidly changing world, supporting enterprise and innovation, and contributing meaningfully to the social and economic success of our city and region.
- Through inclusive education, civic engagement, and strategic partnerships, we will shape a future defined by excellence, opportunity, and global relevance.

# Undergraduate courses

Study future-focused undergraduate degrees, in-person and in English, with a global university

Full programme details will be published on our website when applications open.

## BSc Data Science

Student intake for 2026: 60

Combine mathematics, statistics, and computing to uncover insights that drive real-world change.

## BSc Economics

Student intake for 2026: 60

Explore the forces shaping our world through rigorous training in economics, mathematics, and data.

## BSc Economics with Data Science

Student intake for 2026: 30

Blend economic theory with data analytics to solve complex global challenges.

**“The skills I’ve built at Bristol, combined with its reputation as a Russell Group university, have strengthened my employability. I feel well prepared for research positions and practical roles in industry.”**

Purva, University of Bristol graduate

## Postgraduate courses

### MSc Finance and Investment

Undergraduate Degree Requirements	English Language Requirements
<p>Achieve an average overall grade of 60-70% depending on the Indian institution in a quantitative subject such as Accounting and Finance, Actuarial Sciences, Computer Science, Data Science, Economics, Engineering, Finance, International Economics and Trade, Maths, Physics or Commerce (with specialism in Accounting/Finance/Accounting and Finance/Economics).</p> <p>If your degree subject is not listed above, you will typically need 60 in three units of mathematics.</p> <p>A UK Honours degree with an upper second-class or the <b>international equivalent</b> in a quantitative subject listed above.</p>	<p><b>Profile B:</b> IELTS: 7.0 overall with 6.5 in all skills CISCE or CBSE Standard XII Certificate Examination with a minimum of 80% in English</p> <p>Standard XII Certificate Examination from Gujarat, Karnataka, Maharashtra, Tamil Nadu and West Bengal state boards with a minimum of 95% in English</p> <p>(taken no more than 7 years before the start date of the programme)</p>

### MSc Financial Technology with Data Science

Undergraduate Degree Requirements	English Language Requirements
<p>Achieve an average overall grade of 60-70% depending on the Indian institution in numerate science subject.</p> <p>A UK Honours degree with an upper second-class or the <b>international equivalent</b> in a Numerate Science which includes: Accounting, Aeronautical Engineering, Artificial Intelligence, Astrophysics, Biology, Chemical Engineering, Chemistry, Civil Engineering, Computer Science, Computing, Data Science, Econometrics, Economics, Electrical Engineering, Electronic Engineering, Finance, Genetics, Geology / Earth Sciences, Information and Communication Technologies, Manufacturing Engineering, Mathematics, Mechanical Engineering, Medicine, Mining Engineering, Neuroscience, Nuclear Engineering, Operations Research, Physics, Psychology, Software Engineering, Statistics, Systems Engineering.</p>	<p><b>Profile C:</b> IELTS: 6.5 overall with 6.5 in all skills CISCE or CBSE Standard XII Certificate Examination with a minimum of 75% in English</p> <p>Standard XII Certificate Examination from Gujarat, Karnataka, Maharashtra, Tamil Nadu and West Bengal state boards with a minimum of 85% in English</p> <p>(taken no more than 7 years before the start date of the programme)</p>

### MA Immersive Arts

Undergraduate Degree Requirements	English Language Requirements
<p>Achieve an average overall grade of 60-70% depending on the Indian institution in any discipline.</p> <p>A UK Honours degree with an upper second-class or the <b>international equivalent</b> in any discipline.</p>	<p><b>Profile C:</b> IELTS: 6.5 overall with 6.5 in all skills CISCE or CBSE Standard XII Certificate Examination with a minimum of 75% in English</p> <p>Standard XII Certificate Examination from Gujarat, Karnataka, Maharashtra, Tamil Nadu and West Bengal state boards with a minimum of 85% in English</p> <p>(taken no more than 7 years before the start date of the programme)</p>

# Admissions process

The University ensures that all courses have appropriate selection criteria in place to support the assessment of applications. Below defines the procedure followed while making an offer:

1. The University ensures that all courses have appropriate selection criteria in place to support the assessment of applications in accordance with the admissions aims and principles set out in this document. Selection criteria, assessment methods, and relevant weightings will be published for each course within our course finder and the relevant course Admissions Statement once the application is live.
2. Meeting the minimum entry requirements for a course does not guarantee an offer. For many courses at the University, the number of applications from eligible applicants far exceeds the number of offers that can be made. The number of offers available will be specific to the course, year of entry, and the fee status of applicants.
3. In addition to academic qualifications, we may also take into account information provided within the Personal Statement and Reference. The Admissions Statement for each course will set out how the personal statement and reference are considered and the criteria they are assessed against.
4. Interviews may form part of the application process for some courses and this will be stated in the Admissions Statement where applicable. Interviews may also be required for other courses where it is not possible to make a decision based on the information in the application alone, for example if there has been a gap in education or non-standard qualifications have been taken. Any interviews will be conducted by at least two people, including a member of University staff who has undertaken training on fair and effective recruitment. Interview candidates will be advised of the criteria for measuring performance at interview and a record of the interview will be taken and submitted to the Admissions Team.
5. Supplementary written work may be required as part of the application process for some courses and this will be stated in the Admissions Statement where applicable, along with guidance on what is required and how work will be used within the assessment process.
6. Applicants may also be offered the opportunity to take an admissions test for other programmes where it has not been possible to make a decision based on the information in the application, for example if there has been a gap in education or non-standard qualifications have been taken.

7. Where interviews, supplementary written work or admissions tests are required, these requests must be responded to within the required timescales.
8. All applicants are required to meet the relevant English Language profile as listed on the course specific information. If necessary, evidence of English language proficiency will be included as a condition of offer.
9. The Admissions Team may request further information from applicants to support the assessment of their application. Failure to provide required information within the specified timescale may result in the application being made unsuccessful. Additional information provided which has not been requested will not be considered.

Note: The University recognises that individual applicant's educational attainment and experience may be impacted by a range of factors. Where an applicant's education has been significantly disrupted through health or personal problems, disability or specific difficulties with schooling, they can provide additional information to be considered alongside their application.

# Fees and scholarships

The fees and scholarships information here is for students starting in the 2026/27 academic year.

## Annual tuition fees

Course	Domestic Students (INR)	International Students (INR)
BSc Data Science	15,00,000	17,00,000
BSc Economics	15,00,000	17,00,000
BSc Economics with Data Science	15,00,000	17,00,000
MSc Finance and Investment	22,00,000	24,00,000
MSc Financial Technology with Data Science	22,00,000	24,00,000
MA Immersive Arts	20,00,000	22,00,000

Note:  
(1) Domestic students are applicants who are Indian nationals and currently residing in India  
(2) Tuition fees may increase up to 4% for subsequent academic years. Students will be notified with prior notice of any such increase.

One-time Payments	Fee (INR)
Application Fee	5,000
Admission Fee	50,000
Security Deposit	50,000

## Scholarships

We'll confirm scholarships available for students joining us in 2026/27 through a range of merit-based and need-based scholarships over the course of the year.

# Refund policy

The University of Bristol Mumbai Enterprise Campus is committed to ensuring transparency, fairness, and student welfare in all financial matters.

**A) Tuition fee**

The refund of tuition upon withdrawal of admission shall be governed by the timelines specified below.

Time of Withdrawal of Admission	Percentage of Refund of Fees
15 days or more before the formally notified last date of admission	100% (a deduction of an amount not more than 5% of the fees, subject to a maximum amount of INR 1,000/- as processing fees)
Within 15 days before the formally notified last date of admission	90%
Within 15 days after the formally notified last date of admission	80%
Between 16 to 30 days after the formally notified last date of admission	50%
After 30 days from the formally notified last date of admission	No refund

Note: The university will send out an official notice with the final admission deadline

In cases where a student has been granted a scholarship or fee waiver and subsequently withdraws, the refundable amount shall be calculated after adjusting such concessions.

**B) One-time payments**

- (i) Application Fee is non-refundable under any circumstances. Applicants are advised to verify eligibility criteria, programme details, and deadlines prior to making payment.
- (ii) Admission Fee paid by the student at the time of confirming admission shall be refundable on cancellation of admission by the student.
- (iii) Security Deposit collected at the time of admission is fully refundable at the time of graduation or upon withdrawal from the University, subject to clearance of all dues, return of university property (if applicable), and completion of exit formalities.

**Mode of refund**

- Refunds will be processed within 15 working days from the date of submitting the withdrawal application.
- All refunds will be credited directly to the bank account specified by the student; no cash refunds will be made.
- Refunds will be initiated only after receiving a signed withdrawal request along with the supporting documents.
